"Topsy Turvy Tales" (director Megan Owen)

The Alexandria Library is nestled in the City of Stories; it holds and protects the golden edition of all stories ever written. Golden editions are the first editions, unpublished and untouched, the final drafts from typewriters and Microsoft Word, words that filled leather tomes by the ink of a magic quill and the whispers of the author's imagination. Now something terrible has happened, The Baddies, a wicked gang of villains led by two nasties have broken and turned the library and our world of stories upside down.

Using their unique brand of destruction they have scrambled the tales and now it is up to our heroes to right the stories and return some of our most beloved characters back to their literary homes. Like last semester, our director Megan Owen will write this play after cast members choose their character they would like to play.

1:00-2:30 Tue at SOUTH MERIDIAN (mixed age homeschool)

Marvel and DC heroes come together to concoct a plan and save our favorite princess saving plumber! Like last semester, our director Megan Owen will write this play after cast members choose their character they would like to play.
